

22nd June 2026

Dear Parents and Carers,

Further to the letter I sent on Friday, and with the very hot temperatures expected this week, we would like to let you know that students may come to school wearing their PE kit if they choose to.

Please ensure your daughter comes to school with sun cream applied (and/or brings some with her if appropriate) and has a water bottle with her so she can stay hydrated throughout the day. She can also wear a hat outside if she would like to.

Where possible, we will relocate classes that do not have air conditioning to cooler areas of the school. We will also ensure that the parasols are available on the playground, and the Nuns' Garden will provide a shaded area due to the trees.

If your daughter would prefer to remain indoors during break and lunchtime, this will be absolutely fine. She will be able to spend time in the Dining Hall, Library, or dining hall extension, where she can stay cool and comfortable.

We will continue to monitor the temperatures and make adjustments where needed to ensure the wellbeing and comfort of all students.

Thank you for your support.

Mrs H Barnes

Headteacher
